

LOCAL NEWS ITEMS

Gathered in Town, County and Neighborhood

—Demarcus with a population of less than 400 has sent 15 young men to war training camps during the past few weeks, which is some patriotic showing.

—L. J. Taber, state master of the Ohio State Grange, is critically ill at his home east of Barnesville. Mr. Taber is well known around Canfield by grange members.

—Rutan & Johnston of Carrollton purchased the past season 250,000 pounds of wool, shipping 150,000 pounds to Philadelphia and holding the remainder for higher prices.

—Mrs. W. H. Siefert of Lexington, Ky., in renewing her subscription, writes: "While I have been away from Canfield 18 years I still look forward to the coming of the Dispatch as a letter from home."

—Ohio suffragists are making a desperate effort to block referendum on the Reynolds presidential suffrage act, but it is thought likely Ohio voters will have an opportunity to express themselves on the measure at the November election.

—A Pennsylvania paper says there are more Ohio people touring the eastern part of the country on automobiles than from any other state. At this point one need only to look out upon the street to see a Pennsylvania car passing. Truly the people are having a good time while times are good.

—Ohio dog owners who pay taxes in December will have to pay double taxes on their pets. Attorney General McGhee ruled that the dog registration law passed by the last legislature does not eliminate the paying of special taxes on dog listed in April. Next year, however, dog owners will pay only one tax.

—Albert Barber of New Middletown and Miss Lottie B. Beale of Deerfield were married in Ravenna Sept. 19, at the Congregational parsonage by Rev. I. J. Swanson. The groom is a veterinarian and formerly lived in Canfield. The happy couple left the same afternoon on a honeymoon trip by auto. Their home will be in New Middletown.

—The 47th annual reunion of the 19th O. V. I., which was recruited in this part of the state, was held at Akron last week. The officers are: Colonel N. W. Hove, president; V. L. Curtis, Newton Falls, vice president; M. C. Musser, Warren, secretary-treasurer. The reunion next year will be held at Niles. During the last year 16 members died.

—According to the National Onion Growers' association dry onions should not sell above a cent a pound next winter. The fall crop will be the heaviest in the history of the country. Lack of cars to ship onions is now keeping prices around 2 and 3 cents a pound. Last winter dry onions brought 12 cents in the wholesale market, the highest price on record.

—Driving along country roads past farms one now rarely sees a pumpkin, raising them seeming to be a lost art. Or it is quite likely that now when nearly every farmer has a silo on his place in which to store green feed for cattle compactly it is no longer profitable to grow and feed pumpkins. But the pumpkin cannot be beaten for pie. The fall crop of good pumpkins should not be permitted to rot. Get her cleverness in constructing pumpkin pies, such as the entire household clamors for.

—The war is every man's business, and the sacred obligation resting upon him as a citizen is to do his part to the best of his physical and financial ability. This is a definition of patriotism that cannot be successfully attacked. The man who withholds his service as a soldier when the giving of them involves no grave sacrifice and imposes no grave burdens upon dependents is no more of a slacker, however, than the man with money who refuses to employ it in the advantage of the country.—Commoner.

—The dividing point between summer and fall was last Friday. The days and nights are now nearly equal, so far as sunlight is concerned. The summer has been one just suited to the fruits of the soil and there have been prolific crops from the fields harvested, indeed yields are unprecedented and the quality unsurpassed. The summer has neither been too hot or too cold, too wet, or too dry, but just right. No disastrous storms visited Ohio. No pestilences came upon us. It was a good summer in every way and it gives place to fall in which nature will paint in gorgeous colors, the forests and scatter the seed for the flowers of spring by the gentle breezes of autumn days.

—For years there has been operated across the river from Port Leavenworth a number of saloons that were planted there for the purpose of enticing soldiers across the bridge into Missouri. These conditions were known to the people of Missouri, but they allowed them to continue. When the fort was designated as the recruiting and training station for the new army, the President exercised his authority and closed these saloons. The reason was that the government did not desire these soldiers made unfit for service by being poisoned through drink. An object lesson like that ought to be of immense value to the people of Missouri who have refused to adopt prohibition because it interfered with the personal liberty to get drunk. It ought to impress Missourians with the fact that they are preferring a pretended personal liberty to personal efficiency in their men.—Ex.

DRINK PLENTY OF WATER

As the hot weather ends people are apt to cut down on one of the essentials of diet, and the cheapest one—water. The body can stand fasting for weeks. But death ensues if it goes without water for more than about five days. More than half the body is made up of water, and plenty of fluid is necessary to preserve it in a healthy condition.

Not only does water wash out waste material and supply a necessary ingredient for the body, but it also provides the fluid medium for the chemical processes of digestion. Foods are absorbed better when in solution with plenty of water. This fact dispels the old superstition that water should not be drunk at meals. Experiments have shown that copious water drinking at meals is, if anything, beneficial.

So water drinking should not be slighted just because cooler weather has quieted the thirst of summer. There is no danger of drinking too much. All the danger is the other way.—Kansas City Star.

WHAT PEOPLE READ IN THE DISPATCH 25 YEARS AGO

I wandered through the village, Tom.
I sat beneath the tree.

James Pennell of Austintown is dead.
Son born to Mr. and Mrs. W. C. Wilson.

First frost of the season Tuesday morning.
J. L. Truesdale of Leetonia visited in Canfield.

Samuel Jones of North Jackson is seriously ill.
Two deaths at the county infirmary last Sunday.

Sixty couples danced in town hall Wednesday night.

Calla farmers are busy cutting corn and digging potatoes.

Fisk Jubilee Singers gave a concert in college chapel.

Emory Titus died in Boardman of consumption, aged 65.

Ed. Sprinkle of North Lima bought cattle at Nasby Corners.

George Rothgeb of Nasby Corners had a valuable cow die.

William Wilson, a civil war veteran, died in Washingtonville.

Kirk & Son's saw mill at Rosemont doing a rushing business.

E. E. Torney of Sharpsville is recovering from his illness.

A daughter born to Mr. and Mrs. William Allen of Ellsworth.

Oscar Heintzelman and wife of New Buffalo visited in Niles.

A daughter born to Mr. and Mrs. F. Beckenrode of North Jackson.

Mr. Haag of Michigan is visiting Louis Rel in West Austintown.

John Cole of North Jackson is building an addition to his residence.

Washingtonville hunters bagged a lot of squirrel at Nasby Corners.

Grover Cleveland's letter of acceptance is printed in the Dispatch.

A six pound daughter born to Mr. and Mrs. Bastian Hippy of Calla.

Henry Culp was the first Nasby Corners farmer to finish cutting corn.

Mr. and Mrs. J. M. McKinnis of Ellsworth have visited in Pittsburgh.

J. C. Umstead of North Jackson is building an addition to his barn.

W. L. Ripley and Will Craig are operating their cider mill in Ellsworth.

Mr. and Mrs. Lloyd Allen of Ellsworth are visiting in Washington, D. C.

Mrs. Wm. Geis of New Buffalo will close her singing school with a concert.

Rev. S. H. Bartlett of Hiram preached in the Union church at East Lewis town.

Rev. Shumaker has resigned as pastor of the Baptist church at Locust Grove.

Prof. and Mrs. E. D. Webster of West Farmington are with Canfield friends.

Fred Morlan and Mr. Bonsall, Salem florists, visited the Calla greenhouses.

Mayor Canfield fined a young man named Scott \$2 for fast driving in the village.

Neighbors cut corn for Jacob Rhodes of Sharpsville, Mr. Rhodes being sick.

Mrs. Laura Edwards and two children of Willoughby are visiting in Canfield.

Street lamps have been placed about town and will be lighted on moon schedule.

Daughters born to Prof. and Mrs. J. C. Cummins and Prof. and Mrs. J. R. Taber.

William McCoy of Youngstown has been elected secretary of the railway political club.

Little daughter of J. J. Moherman of Rosemont is recovering from cholera infantum.

Mrs. R. G. Kretler of Warren visited Mr. and Mrs. Chas. Yoxtheimer in Rosemont.

M. J. Barnes of Ellsworth township is making extensive improvement on his residence.

Chris Boyer of East Lewistown is shipping large quantities of railroad wood from Calla.

William McCartney, writes that he has killed a deer, a bear, and considerable small game.

Total expense conducting county infirmary including outside aid the past year was \$20,280.02.

James Cartwright, one of the first to manufacture iron in Youngstown, is dead at the age of 64.

Dallas Osborne, Charlie Rose and Luit Laute of North Jackson will soon return to school at Hiram.

A. P. Calvin of Sharpsville reports a light potato crop as he will have only 200 bushels from 6 acres.

Dr. G. P. Kirk of East Liverpool, democratic candidate for congress, called at the Dispatch office.

The People's party will hold a mass convention in Youngstown on Saturday to nominate a county ticket.

W. E. Rose and D. L. Rose, doing business in Rosemont and Canton, have dissolved partnership, W. E. Rose retiring.

Mrs. S. M. Raymond was called to Findlay by the serious illness of her mother, Mrs. I. A. Knapp, who has cancer.

A thunder storm Sunday night kept people away from children's day exercises in Paradise Reformed church near New Buffalo.

More than 25,000 people attended the Canfield fair this week and the receipts amounted to \$5700, the largest in the history of the society.

Monthly union meeting will be held in the Congregation church Sunday night.

Revs. Kendig and Dickson and Profs. Cummins and Miller will deliver addresses.

A fine specimen of a disarticulated snail lobster has been artistically and skillfully mounted by J. V. Calvin and H. O. Merriman and placed in the normal zoology cabinet.

Thieves were busy in the vicinity of Dublin during the fair securing money and valuables at the homes of J. R. Dickson, Ben McGowan, Joe Kirk, James Park, I. A. Manchester, and Julius Tanner.

Canfield base ball club played nine games the past season and won seven of them. The team organized for next year by electing F. C. Masten, manager; J. C. Nash, captain; W. D. Coy, treasurer; T. V. Dodson, umpire; W. D. Lynn, scorer.

The Philanthropic literary society elected the following officers: President, J. I. Williams; vice president, J. C. Patterson; corresponding secretary, Ira Schuurmanberger; censor, J. V. Calvin; chaplain, J. R. Campbell; treasurer, A. P. Calvin; critic, E. N. Beardsley; assistant critic, Martha Schuurmanberger; librarian, Ethel Moore; assistant, Blanche Kriner; chorister, C. S. Ramsey; sergeant, No. 1, C. E. Johnston; No. 2, A. B. Kimmel.

Newtownian literary society of officers: President, M. V. Cummins; vice president, Anna Ditzel; critic, Jessie Taft; librarian, Gertie Riddle; assistants, Gertie Stotter and Lucy Poehle; marshals, Lewis Hartman and Arlie Osborn.

POTATOES AS FOOD

Perform Important Function in Keeping Body Tissues Alkaline—Methods of Preparation.

The general use of potatoes in the average family and the better customs prevailing in many homes in preparing the tubers for food are based on sound economic and dietetic reasons, according to specialists of the Office of Home Economics of the United States Department of Agriculture. Studies of the preparation and use of potatoes as food are reported in Department of Agriculture Bulletin No. 468, recently issued.

Potatoes are easy to cook in a variety of ways. From the point of view of dietetics, they furnish starch in one readily digestible form, contain mineral substances of importance to the body, and— a fact less generally known—tend to make the tissues and fluids of the body alkaline, so counteracting the tendency of meats, eggs, fish, and like foods to create acid conditions. Since the body does its work best when its condition is either neutral or slightly alkaline, potatoes, like most vegetables, perform an important function in the diet besides furnishing energy-producing material. This scientific fact justifies the custom that is prevalent in many families of serving a goodly supply of potatoes or other vegetables with each helping of meat.

Potatoes, however, while a valuable addition to a mixed diet, alone are not suited to meet the needs of the body because of their poverty in proteins and fat. Of these latter important elements, protein is furnished in meats, eggs, fish, milk, beans, and similar foods, and fat in butter, bacon, lard, and the fats and oils used in cooking.

Greater care than commonly is exercised should be taken in peeling potatoes. Very often 20 per cent of the potato is pared away. This results not only in the waste of considerable potato but also in the loss of one of the most valuable portions of the tuber, since the soluble mineral salts are present in the material near the skin, which would be removed and thrown away. These salts can be preserved by a more careful removal of the skin, as by shallow paring or rubbing, and also by boiling or baking the potatoes in their jackets.

Paring before boiling, however, may be the most desirable method of cooking potatoes which through an undue exposure to light may have acquired bitter taste, or those which have been kept until late in the spring, since in this way more of the disagreeable flavor is eliminated. Such potatoes may also be soaked before cooking.

While these methods may be desirable with potatoes which have been exposed to light, they result in the loss of considerable food value without compensating advantages when applied to new or well-matured potatoes. If such potatoes are boiled after paring, they should be dropped into boiling water instead of being placed on the stove in cold water. By the latter method there is twice the loss of protein, or tissue-building elements, resulting from the former. The loss of mineral matter is about the same by each method. There is no loss of starchy material in boiling unless portions of the tuber break off.

Practically the only loss when potatoes are baked in their skins is in the water which escapes as steam. The more or less common custom of pricking holes in the skin of baked potatoes or breaking them is explained by the fact that unless the steam which is formed inside the skin is allowed to escape it will change back into water and produce soginess.

Potatoes which have turned green and sprouting tubers have present a considerable quantity of solanine, an acrid poisonous substance which, though not dangerous in the quantities ordinarily met with, gives a disagreeable flavor. It is best, therefore, to avoid such potatoes or to cut out green or sprouting portions.

Grain Not to Be Fed Alone to Breeding Hogs.

In order that losses by accident may be prevented and the period of usefulness of the animals for breeding purposes lengthened, breeders want hogs with strong, dense bones. Since cereal grains are low in mineral elements, they should be supplemented by feeds rich in these constituents.

When confined in yards hogs are often fed largely or entirely on grain rations, so that their bones are soft and easily broken. Nutrition studies conducted at the Ohio Experiment Station proved that cereals alone will not produce normal growth of bone. Corn alone and corn with soybeans produced the least bone. Rations of corn supplemented by tankage and by skim milk produced the most bone.

Because of their high protein and lime content alfalfa and clover hay may be fed to advantage to mature breeding hogs, and in the spring green leguminous crops may be used. For feeding in connection with grains, the Experiment Station also recommends lime, corn cob charcoal, bone flour and wood ashes. These may be fed in self-feeders, preferably mixed with a small amount of salt.

Today many of our roads carry a motor traffic far in excess of the total traffic of all classes carried 12 years ago. At the present time there are about 2,500,000 motor vehicles in use on our public roads, or about one motor vehicle for every mile of road.

Has a High Opinion of Chamberlain's Tablets.

"I have a high opinion of Chamberlain's Tablets for biliousness and as a laxative," writes Mrs. C. A. Barnes, Charleston, Ill. "I have never found anything so mild and pleasant to use. My brother has also used these tablets with satisfactory results."—adv.

One reason why there were only seven wonders of the world is because, even in those days, wives didn't take any back talk off their husbands.

Say you saw it advertised in the Dispatch.

AGE NO BAR

Everybody in Canfield is Eligible. Old people stooped with suffering. Middle age, courageously fighting. Youth protesting impatiently. Children, unable to explain. All in misery from their kidneys. Perhaps a little backache first. Bladder disorders, dropsy may quickly follow.

Doan's Kidney Pills are for weak kidneys.

Are endorsed by thousands. Here's Canfield testimony.

Mrs. V. P. Blim South St., says: Doan's Kidney Pills have been used all through our family with good results. Although I have had occasion to use but very few of them myself, Doan's have proven a very good kidney remedy for others in my family. My daughter was troubled a great deal with weak kidneys. Doan's Kidney Pills proved very beneficial. Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Blim recommends. Foster-McLennan Co., Props., Buffalo, N. Y.—adv.

REBMAN

Has No Competition

My Examination of you eyes is entirely different from all others in Youngstown. The people who know this are those who have tried otherwise without success. When your eyes go wrong—I will be pleased to consult with you. I use no drugs or poisons.

Hardly a Woman This Season But Feels She Should Have a New Suit

—Hardly a woman but realizes there's no other garment can quite take the place of a suit for certain occasions. As a result of which suits have come to the fore with great strides and are running neck and neck with the new coats in the Autumn fashion race.

There are more than 300 suits here at the present writing, beginning at \$19.50 and going up to \$159.50. Not a few materials, a few styles nor a few colors—no few fashion preferences to make most women appear dressed alike—but all the modish things imaginable—so that every woman may choose exactly what is best suited to her needs and be right up to the mode.

It's surprising how many women are selecting their new suits early with the idea of getting a whole season's service!

Suits at \$19.50 to \$29.50

Poplins and Serges lead in this price range—the most practical fabrics for women who must keep within moderate price limits. A score or more of the most desirable tailored and braid trimmed models. Black, navy and brown; sizes 14 to 46.

Suits at \$59.50 to \$89.50

High grade garments reproducing in many instances Parisian originals. Velvets, Broadcloths, Velours, Tricotines, Burellas, Poirer Twills and beautiful Serges—the fur trimming feature is dominant, with frequent use of Hudson Seal, Beaver and Nutria. Black and the best colors.

Suits at \$95.00 to \$159.50

Superbly tailored and designed garments of the exclusive types—Silk Velours, Chiffon Velours and Velours de Laine—attractively trimmed with fine furs such as Kit Fox, Taupe Fox, Hudson Seal, Beaver and Skunk. In taupe, brown, green, navy, beetroot, oxford, rose-taupe, black and novelties.

Four Pretty Blouses at Only \$2 and \$2.50

Unique styles of business or everyday blouses are these—in such practical war materials as dimity, poplin, pique and striped voile.

One model has the detachable collar, so you can wear tailored stocks if you like—three others can be worn either high or low neck.

Freshly opened and only \$2.00 and \$2.50.

\$3.00 Crepe de Chine Vests at \$1.95

—which is an opportunity of the greatest importance to women who love dainty underthings and appreciate an unusual saving.

Pink Crepe de Chine of a fine quality—with neat plain hemstitched band top, hemstitched straps and hemstitched around the bottom, too.

Regularly \$3.00—at \$1.95—and you must expect them to go quickly!

Cut and Semi-Cut Glass at 39c to 95c

Pieces Made to Sell at 50c to \$1.50

We're ready for it—ready with 1015 pieces of sparkling glassware sold to us at quite a discount, and in turn to be sold at the consequent good savings.

Included are FRUIT BOWLS, FLOWER VASES, CANDLESTICKS, OLIVE TRAYS, PICKLE DISHES, BON-BON DISHES, CRACKER AND CHEESE DISHES, SUGARS AND CREAMS, 3-PIECE MAYONNAISE SETS, HANDLE FLOWER BASKETS, HANDLE NAPPIES, SYRUP PITCHERS, AND OTHERS.

Women's Brighton-Carlsbad Flannelette Nightgowns At \$1.50

—And much finer gowns, you may feel assured, that we could buy now to sell at this price.

Being Brighton-Carlsbad garments, you know at once they must be full cut and well made, and they're every one new and fresh.

The material is a fine, warm Flannelette in neat pink and blue stripes. Low neck style gowns and double yokes and hemstitching, or with carefully done feather stitching. Unusual at \$1.50.

All the Cute Little "Beacon" Crib Blankets

—Are in and ready for mothers who've been awaiting their coming. And were are hundreds of mothers who'd never think of covering their little "dearies" with any but "Beacon" crib blankets. They're so soft, fleecy, warm and fine—and in such charming patterns!

Pink or blue grounds, with cunning little nursery designs or flounced effects:

30x40 inch, priced at 75c.

36x50 inch, at \$1.00 and \$1.25.

Or, white grounds, with pink and blue borders, all silk bound:

32x42 inch, priced at \$1.00.

36x50, at \$1.35; 48x60, at \$2.25.

500 Yards of White Nainsook At 23c

At the White Goods Section we place on sale a quantity, approximating 500 yards, of dainty, soft-finished white Nainsook, regularly 29c a yard, at 23c. It is 36 inches wide, nice for undergarments, and we doubt if we could replace it to sell below 35c the yard.

FREE—Trial Size of Marinello Face Powder

This popular face powder has just been added to our extensive stock of Toiletries. To introduce it quickly we'll present a trial size free to each one making a purchase at the Toilet Goods Section.

A Special Sale of Dainty Silk Camisoles, \$1.19

There are 120 of them—secured in a fortunate turn of trade which gives us lovely camisoles that we'd price \$1.50 in the regular way—ot sell in a special way at \$1.19.

All in the pretty flesh pink—wash Satins and Crepe de Chines—some of them with wide Filet lace tops and ribbon straps, while others have the daintiest Net tops with hemstitching and Net straps. In every case there's elastic at the waist.

Splendid purchases to make now and lay aside for Christmas.

TWICE-A-WEEK DELIVERIES BY FAST MOTOR TRUCK TO CANFIELD—EVERY TUESDAY AND FRIDAY. PACKAGES DELIVERED RIGHT TO YOUR DOOR.

The Strouss-Mirshberg Co.
